### **DETAILED ACTION**

This Office action is responsive to communication filed March 16, 2009. The objection to the specification is withdrawn in view of applicant's preliminary amendment that was filed along with the request for nationalization of the PCT application on March 23, 2006. The prior art rejection of claim 26 is moot in view of applicant's cancellation of the claim.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 15-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In lines 9 and 10 of claim 15, the recitation of the pressure section feeding into the suction section "in an ejector-like manner" is vague and indefinite. The following recitations are noted to lack antecedent basis: "the surroundings" in claim 19 and "said outlet" in claim 23.

#### ***Allowable Subject Matter***

Claims 15-25 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
